□

- efficient 1500 W commutator motor
- rotational speed of 4800 RPM ensures precision and cutting speed
- cutting at an angle of 0-45° and cutting depth adjustment up to 65 mm
- stable and even steel foot
- possibility of connecting an industrial vacuum cleaner (internal diameter of the connection: 34 mm)
- convenient, rubber handle
- supplied with 185 mm diameter cutting disc with 24 teeth, with standard 20 mm diameter clamping hole
- 3 m long rubber cable
- possibility to buy spare discs:
 - YT-60631 (140T) for laminates (tops, stairs, panels)
 - YT-60628 (14T) for wood with nails
 - YT-60625 (48T) for steel
 - YT-60627 (60T) for PVC (cable trays, skirting boards etc.)
 - YT-60907 (60T) for aluminum (threshold strips, profiles etc.)
