

Laser rangefinder

YT-73129

Innovative laser rangefinder for measurements of distances of up to 900 m, as well as heights and velocities of objects being observed. Recommended for tourists, athletes, hunters and golfers.

- measuring range: 5-900 m (accuracy: +/-1 m)
- angle measuring range: 60° (accuracy: +/-1°)
- velocity measuring range: 0-300 km/h (accuracy: +/-5 km/h)
- wavelength: 905 nm
- telescope magnification: 6x
- telescope with display allowing for easy and fast measurement
- durable, resistant IP54 casing (protection against dust and dripping)
- mountable on a tripod
- high-end surface finishing
- light and handy (weight: 172 g, dimensions: 105 x 82 x 43 mm)
- powered by 2 AAA batteries
- handy bag
