

Cordless SDS-plus hammer drill

YT-82770

A lightweight and ergonomic hammer drill with the chiseling function. Thanks to its low weight, short body and power supplied from a resilient battery, it is excellent for using during installation of suspended ceilings and serial drilling in concrete. Recommended for fitters and electricians.

- 3 functions: drilling, impact drilling and chiseling
- high efficiency per single battery charge
(60 openings in concrete for standard 6 x 40 mm rawplugs)
- SDS-plus quick chuck system
- strong body made of polyamide reinforced with glass fibre
- 4-step battery charge indicator
- protection against battery cell overheating
- 18 V system – operation on a common battery, fitting the whole series of devices
- spare batteries are available with capacities of
2 Ah (YT-82842),
3 Ah (YT-82843)
and 4 Ah
(YT-82844)

Set

- SDS-plus hammer drill
- Li-Ion 18 V 3 Ah battery
- quick charger
(1.5 h for a 3 Ah battery)
- handy case
