

Forstner drill bits and drill bits for knots

Professional drill bits designed for joinery and carpentry works with the use of a table drill or a hand drill. They enable to cut even holes in wood and wood-based materials, as well as remove knots and other defects, as well as mask them with plugs. They are useful e.g. when making grooves for hinge boxes.

- made of hardened carbon steel with HRC 45-48, polished surface
- drilling holes of different diameters with equal edges
- length of forstner drill bits: 110 mm
- length of drill bits for knots: 90 mm
- available in pairs – forstner drill bit and drill bit for knots
