

Screw extractor set

YT-06032

Screw extractor set is designed for unscrewing of baked and damaged screws and nuts. It is intended for professional mechanical and automotive services.

- includes 5 bolt and nut caps in sizes 17-27 mm and a striker
- made of durable, impact-resistant CrMo steel
- special shape enables wedging on the damaged surface, making it easier to remove the damaged part
- it helps to loosen screws and nuts with a clockwise thread
- it cooperates with a ratchet 1/2"
- packed in a handy suitcase
