

HEX universal drills

Intended for professional applications – drilling in hard and unworked materials: concrete, stainless and acid-proof steel, aluminum, ceramics and wood.

- made of hardened steel with a hardness of 90-92 HRC
- tungsten carbide blades show higher hardness and abrasion resistance
- hexagonal holder HEX 1/4" enables to attach to cordless screwdrivers and impact wrenches

STHOR	Ø (mm)	H1 (mm)	H2 (mm)
21680	3	26	75
21682	4	30	80
21684	5	35	85
21686	6	50	110
21688	7	60	110
21690	8	70	120
21691	10	70	120
21692	12	90	150

Set of drills

21695

- 4, 5, 6, 8, 10 mm
- available in a practical case
