

Miter saw

YT-82174

Professional miter saw with a feed designed for straight and angle cutting of wood and steel. Useful during renovation and construction works: cutting of skirting boards, panels, soffit, parquets, plinths and PVC, cable trays, square beams, battens, steel profiles, e.g. for railings and gates etc. It ensures precise and quick processing of materials.

- stable base with precise vertical and horizontal cutting angle adjustment
- lateral extendable brackets facilitate cutting of longitudinal elements
- laser cut line indicator
- bearing feed of the cutting disc
- smoothly operating tilting blade guard (integrated with a switch)
- clamp integrated with the base ensures safe and quick immobilization of the processed material
- readable angle scale ensures precise cutting
- option of using a chip bag or connecting a vacuum cleaner
- compact dimensions and transport handle in the central part of the housing ensure proper balance and easy transport
- the set includes: chip bag, disc (255 x 25.4 mm)
