

Submersible pumps

Designed for pumping clean water out of deep water wells.

- robust housing made of durable and corrosion and biological resistant stainless steel (inox)
- copper winding
- max. immersion depth: 80 m
- max. water temperature: 35°C
- max. diameter of impurities: 1.5 mm
- cable length: 20 m
- water connection: 5/4"
- protection rating: IP58

230V~
50Hz

INOX

20 m

IP58
