

Tool security links

Spring links are designed for effective protection of tools against accidental falling and damage. Particularly useful when working at heights, e.g. on scaffolding, steel structures etc.

- stainless steel link in PVC sheath
- tips secured (on both sides) with carabiner hooks
- stretching range: 52-170 cm

52-170
cm

YT-74008

- diameter: 1 mm
- max. load: 2 kg

YT-74009

- diameter: 1,5 mm
- max. load: 3 kg
