

Air Brake Bleeding and Oil Extraction Unit (Art. 3155)

PRO +

- suitable for daily workshops use
- a clean oil change is possible by suction
- usable for engine, transmission, rear axle oil and other non-corrosive liquids
- suction hose diameter in 9.8 - 8.0 - 6.7 - 4.5 mm for suction through the dipstick tube
- 7.5 l container with base ensures stability, to accommodate large amounts of oil
- suitable for oil extraction at all smart models but also for all other vehicles for which an oil change is to be performed without using a lift
- with a special silicone brake breather hose with a valve for one-hand operation
- easy brake bleeding on brake systems on all vehicles
- the built-in hand vacuum pump allows brake bleeding even without compressed air
