

Telescopic Stand for Engine or Trunk Lid (Art. 8246)

- adjustable from 53 to 120 cm
- for easy alignment of trunk lid and hood
- can be locked in many positions by turning the telescopic rods
- only a few centimeters more opening width can make working more convenient
- also useful when changing the original openeners or dampers and during car body repair jobs
- rubber feet on both ends prevent slipping away
- low weight, made form aluminium
